ADVANCED UV-C LIGHT TECHNOLOGY

An air scrubber is essential to improve the air quality in any room in your home or at work. Surprisingly, Our newly developed air scrubber also built-in UV-C Light. UV-C light technology works with filters to enhance the elimination of airborne pollutants, decompose remaining odor molecules caused by smoking, cooking, and pets.

HIGHER PURIFY PERFORMANCE

Sentinel HEPA Pro Air Scrubber adopts Upgraded Motor to creates stronger airflow, up to 750 CFM with Variable Speed as a Portable HEPA Air Purifier. It can be used with up to 3 levels of filtration, Pre-filters, 2 in 1 Activated Carbon/HEPA Filters. This way, you can be certain the entire room is benefiting from cleaner air.

FEATURE

- A convenient filtration system that cleans the air.
- Features a highly effective 3 Stage Filtration System, Pre Filter, HEPA/Activated Carbon Filter.
- Features a UV-C light technology works with filters.
- A bigger air intake than competitors units, 750 CFM maximum airflow capacity.
- Units interlock for ease of stacking during storage and handling.
- Speed control switch.
- Lightweight, compact, and durable ABS plastic housing design.
- Power-on, Filter change indicator light.
- 25 ft. power cord with cord management.
- ETL/CETL safety certified.

4 IN-1 TRUE HEPA FILTER & UV-C LIGHT AIR SCRUBBER

The Sentinel HEPA Pro is a convenient filtration system that cleans the air. It features a highly effective 3 Stage Filtration System, Pre Filter, HEPA/Activated Carbon Filter. The air scrubber features a UV-C light technology that works with filters.

BENEFITS

Clean air should be everywhere, not just near the purifier. Combat Seasonal Allergies. 3-Stage Filtration system Effectively destroys dust, cigarette smoke, pollen, pet dander, and other airborne irritants. UV-C light technology works with filters, captures, and destroys pollutants to ensure the whole room benefits from purified air.

SPECIFICATIONS

Input voltage	220 VAC, 50 Hz
Plasma generation	+2.000.000/cm ³ positive ions, -3.0000.000/cm ³ negative ions
Ambient temperature requirement	-10 °C ~ 35 °C
Environmental humidity requirement	<65%.
Timer	24h
Service life	20.000h
Applicable area	20-30 square Meters
